

Meritor Part

Meritor Parts - Meritor is a premier international dealer that is proudly established on a one hundred year tradition of quality and service. They focus on various integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage in the global operations. The business values all of their customers and would like to ensure their success while anticipating their different needs. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred people, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused individuals, Meritor strongly feels these top-caliber workers would be able to rapidly adapt to changing environments and demonstrate the performance and commitment considered necessary to be able to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers their staff various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, suspension and braking systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum progress at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every aspect of the trade. The DFSS or also referred to as Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean techniques.
