

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader manufacturer in the globe. They have been a dedicated producer of spreaders used for various applications such as the swap bodies, trailers and handling of containers.

Engineering is done in-house by utilizing the latest CAD systems and FEM tools. The ELME business currently has over 125 workers. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the world.

The product range of ELME consist of many spreaders for different container and trailer handling operations. Some of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks as well as a huge array of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by way of using high quality parts in order to guarantee reliability and excellent standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market reaction and inventive modular spreader concept.
