

Clark Forklift Part

Clark Forklift Parts - Currently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in service in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific components fabricated for 20 exclusive designs of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the particularly economical and beneficial system of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most effective method of production facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the efficiency and brilliance of their merchandise while minimizing expenses. The new value engineering agenda combines modern product development and offers improved customer support and service within the industry.
